

Greetings,

I am concerned that allowing up to 45% of the market to be owned by one corporation is not in the public's interest.

As an architect and artist, I maintain that diversity of expression and fair competition are highly valued aspects of American culture, and thus should be protected similarly to our cherished natural resources such as Grand Canyon.

Please, Chairman Powell, allow the debate to move forward on Broadcast Ownership before the rules are changed, by postponing the June 2nd signing.
